## Welcome to our Fourth Production Sale!

The HanSine Ranch crew would like to welcome you to our 4th Annual Bull and Female Sale. We would like to take this opportunity to thank all of our past bidders and buyers. As always, we are humbled by your support and interest in the HanSine Ranch program.

It's hard to believe it's already sale time again and equally mind blowing that this is our fourth year of having a spring bull and female sale. We couldn't be more proud of the red angus cattle being offered this year, they've performed amazing and look just as great. I look back at our past sale catalogs and I'm amazed at how far our cattle have come in a relatively short amount of time. We feel the key to these improvements have been better feeding, better genetics and even tighter quality control via intense culling. We began the season with nearly one hundred and fifty bulls and have continually whittled down to the ninety bulls you see today. Regardless of pedigree, EPD or phenotype, if an animal doesn't meet our benchmarks they don't stay intact. Out of the pasture at weaning, their first 60 days of development, and lead up to a final sale order, only the best continue. Without a doubt we cut bulls that could be turned out. If they don't make a weight cut off, an expected foot shape, structural imperfection, unruly disposition, they are gone without exception.

In closing I would like to thank all the people that make this event possible. Bruce Thompson, Cade Wurts and Casey Henniger are with these cattle from the time they are born. They do a fantastic job taking care of all the day to day needs at the ranch. Also, I'd like to thank Bryce Baker and Kemp Kuykendall with ADM Feed. They have taken our feed program to a new level. ADM has shown us the true genetic potential of our cattle. Lastly, I'd like to thank my Wife and Kids for all their help and support.

**Thank you for your continued support!**

— 2H

*Travis Shalla*

## **Directions to the Sale**

**\*Sale Facility is located 2 miles east of Hayes, SD on the north side of Hwy 14**

**\*Bulls and Heifers will be available for viewing at our pens 5 miles west of  
Hayes, SD on the north side of Hwy 14**

# Red Angus Guide to EPDS and Indexes

**ProS...** Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**HB .....** HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

**GM.....** GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

**CED .....** Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

**BW .....** Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

**WW .....** Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

**YW .....** Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

**ADG.....** Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

**DMI .....** Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

**MILK .....** Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

**ME .....** Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

**HPG.....** Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

**CEM .....** Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

**STAY.....** Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

**MARB....** Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

**YG .....** Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

**CW .....** Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

**REA .....** Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

**FAT.....** Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

It is extremely satisfying to see the fruits of our labor over multiple generations- HRP TROJAN 1004J was the first big time herdbull we sold to Niobrara Red Angus in 2022. We couldn't be more pleased with how he's stamping his progeny with the same power and phenotype he exhibited. Pairing him with a C-Bar Leanna cow who sports an incredible udder and feminine shape 3021L will make replacements you won't want to let go.

## Black-Red Carrier Bulls

Don't miss this opportunity to get TOP TIER Black Angus genetics with the Maternal characteristics of the Red Angus cow. These bulls are cutting edge genetics that results from the F1 cross during the incorporation of Black Angus genetics into the Red Angus breed. Breed these bulls to straight black cows and you'll get black calves, breed them to straight red cows and you'll get half black hides.

**PIE CAPTAIN 057**

**C-BAR LEANNA 960G**

Here is a CAPTAIN son that does everything! Thick muscle and stout stance he's ready to go to work. Deconstructing his Top 2% ProS index, shows 8 EPD in the top 10% of the breed along with another 8 EPD in the top quarter of the breed! Lining up nicely with his actual performance and ultrasound data he is off the charts good. Full flush brothers sell lots 69, 70, 71

# Embryo Packages

Here is an opportunity to get a head start on cutting edge genetics! Featuring ultra exclusive bulls like **PIE HOLLYWOOD 222**, **PIE INTENSITY 295** and the ever rarer **KJL/CLZB COMPLETE 7000E**! Mated to fabled cows such as **HXC PATRICIA ROSE** and **HXC 507C** along with rockstar young donors **HRP JUDY J120** and **HRP TOYANNA J140**. These five embryo packages are straight out of the tank we'll be working out of this spring.

**Lot 90: We start out our registered heifer sale lots with a whooper! This soft made, deep ribbed powerhouse female will catch your eye from across the pasture. If you're looking for a female to add some growth to your herd, here she is! Boasting an impressive 115 yearling weight ratio the PIE COMMANDER 0100 shows through in this daughter. Don't miss your chance to add style and pounds to your herd with this heifer!**

**Another powerful female that hits all the ratios and EPD to be a cow you'll look forward to seeing everyday! LOOSLI PERSEVERANCE 019 is a bull we sorta lucked into through a semen trade. We liked his look and numbers so we thought we'd test some matings with him...and we're glad we did. PERSEVERANCE progeny have looked great from calfhood to sale day and performed at every benchmark we measure.**

**C-BAR LEANNA 921G**

Here's a lady to you could build a herd around! Her deep bodied feminine profile will leave you hoping for more heifer calves to keep. Her dam, C-BAR LEANNA 921G, was quickly promoted to our donor group because of her style, great udder and easy disposition. The longevity is apparent in this line! Outcrossed to the Canadian RED RESOURCE line, L3246 has amazing potential.

# Yearling Heifers

**Check out Lots 4, 28 and 29 for her half-brothers!**

**A little different black red carrier, L3273 traces her Angus heritage back to a Baldrige Angus cow family. Those familiar with AAA and the Baldrige program will no doubt recognize the legendary BALDRIDGE ISABEL Y69 maternal great-grand dam in the pedigree. Deep broody form in a moderate frame size, she's a pleasure to see move. PIE CAPTAIN 057 adds the red-genes along with the Red Angus maternal and growth characteristics.**

# ***Special thanks to our industry partners:***

**This incredible set of Red Angus bulls have all been developed with the commercial cow man and woman in mind. Each of these calves were born to cows that have been a part of a high end nutrition program utilizing only top tier products from the ADM range mineral and range protein lines for multiple years. A solid nutritional foundation coupled with strong genetic decisions from Travis and his guys made the development of these cattle a breeze. All of the bulls and females in the sale were developed on a high roughage diet utilizing ADM's AminoGain Technology, a variety of hay, corn silage and limited levels of corn and distillers grains. The diets that these cattle have been on from Day 1 have been aimed at ensuring proper growth, longevity and structural soundness for years to come. This high roughage, slow grow process is made possible by the decision to introduce supplemental creep at the end of the cow/calf pair stage. This feed is plant protein and roughage based, designed to be low consumption while helping to stretch fall pasture and prevent cows being drawn down. It allows for the transition at weaning to be seamless, and cattle go straight into their growth curve. Getting bulls growing faster allows us to offer a more physiological mature bull, which is of uber-importance to making sure yearling bulls are ready to go out and work for YOU. Each nutrition decision has been made through careful deliberation with everyone involved to ensure this entire set will go out, perform and bring the value of HanSine Ranch's genetic decisions and hard work to your cowherds. These cattle will go out and work for you from day one, I have not a doubt in my mind. I truly believe there is something for everyone in this set and I feel fortunate to have been a small part in getting them to this sale.**

**If you have any questions in regards to the nutrition of the cattle from calving through sale day, please don't hesitate to reach out to myself or any of the HanSine crew.**

# Pickup and Delivery

## PICKUP:

Any bull or heifer picked up sale day or within 7 days of the sale will receive \$100 off the purchase price. Loading will begin as soon as the sale is done and by appointment in the days following the sale.

## DELIVERY:

**FREE** Delivery to a **CENTRAL LOCATION** in-state and to all surrounding states – North Dakota, Minnesota, Iowa, Nebraska, Wyoming and Montana. Delivery to all non-surrounding states will be charged based on the location (see state map and rates below) to the most convenient **CENTRAL LOCATION**. Much of our interstate delivery is done with a semi-truck & trailer, these necessitate facilities allowing unloading, sorting, reloading and possibility housing cattle. Typically, these are livestock auctions or similar locations along major interstate corridors. We will coordinate with all buyers to get them as close to you as possible in a timely manner.

# Terms and Conditions

**BIDDING:** The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

**TERMS:** Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

**PURCHASER'S RISK:** Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

**IDENTIFICATION:** Seller offers each animal with readable tattoos corresponding to its registration

**CERTIFICATE OF REGISTRY:** A transferred certificate of registry will be furnished to the Buyer for each animal.

**HEALTH:** All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal in accordance with prevailing State/Federal Regulations.

**ANNOUNCEMENTS:** Announcements from the auction block shall take precedence over the sale catalog and/or any additional printed information regarding animal(s) sold.

**GUARANTEE:** All animals are guaranteed for soundness and fertility for the first breeding season. Complete guarantee terms by the Red Angus Association of America are available online or a copy can be provided upon request.

**RIGHTS AND OBLIGATIONS:** These terms and conditions of sale constitute a contract between the Buyer and Seller of each animal. Any subsequent sale or resale of an animal constitutes a separate transaction. All persons attending the sale does so at their own risk. Neither HanSine Ranch or all agents of the owner assumes any liability – legal or otherwise.

**DELIVERY:** Delivery to central points will be made **FREE** of charge. Any animals picked up within one week of the sale (April 10th 2021 – April 16th 2021) receive a **\$100 DISCOUNT**.
