Saturday, April 9th 2022 * 1:30pm (CST)
Hayes, South Dakota

55 Yearling Red Angus Bulls
12 Yearling Red Angus Heifers
100 Commerical Red Angus Heifers
Travis Shaffer - (605)280 -0693
www.hansineranch.com

Welcome to our Second Production Sale!

The HanSine Ranch crew would like to welcome you to our 2nd Annual Bull and Female Sale. We would like to take this opportunity to thank all of our past bidders and buyers. As always, we are humbled by your support and interest in the HanSine Ranch program. We are very proud of the Bulls and Females in this year's sale. The offering showcases our commitment to produce cattle that will add growth, fertility and performance, while preserving the maternal and docility traits known of the Red Angus Breed. It is a passion of ours to buy and breed the best possible cattle we can. We strive to offer only the kind of cattle we would want in our own herd, phenotypically attractive, sound feet and legs, and the genetic potential to make every generation better.

This year we have decided to offer 100 head of our very best home raised commercial heifers. All heifers will have reproductive tract and pelvic area test prior to the sale to insure fertility.

In closing I would like to thank all the people that make this event possible. Bruce Thompson and Casey Henniger are with these cattle from the time they are born. They do a fantastic job taking care of all the day to day needs at the ranch. Also I'd like to thank Bryce Baker and Kemp Kuykendall with ADM Feed. They have taken our feed program to a new level. ADM has shown us the true genetic potential of our cattle. Lastly I'd like to thank my Wife and Kids for all their help and support.

Thank you for your continued support!

— 2 H

Travis Shalla

HANSINE RANCH

2nd Annual Bull and Female Sale **Saturday, April 9th 2022 * 1:30pm (CST)**

55 Registered Red Angus Yearling Bulls
12 Registered Red Angus Yearling Heifers
100 Commercial Red Angus Heifers

Schedule:

Friday, April 8th
Bulls and Heifers available for viewing all day
Saturday, April 9th
12:00 Noon – Steak Lunch

***Bulls and Heifers will be available for viewing at our pens 5 miles west of Hayes, SD on the north side of Hwy 14**

Red Angus Guide to EPDS and Indexes

ProS... Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

HB HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning. Expressed as dollars per head born, HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning. Traits included in the HB index include Calving Ease Direct, Calving Ease Maternal, Weaning Weight, Milk, Mature Weight, Heifer Pregnancy and Stayability (Index/High Value).

GM..... GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feedyard performance and carcass traits. Expressed as dollars per head born, GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. Traits included in GM include Average Daily Gain, Carcass Weight, Dry Matter Intake, Marbling, Back Fat and Rib Eye Area (Index/High Value).

CED Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams. (Percent/High Value)

BW Birth Weight predicts differences in actual birth weight of progeny. (Pounds/Low Value)

WW Weaning Weight predicts differences in 205-day weaning weight. (Pounds/High Value)

YW Yearling Weight predicts differences in 365-day yearling weight. (Pounds/High Value)

ADG Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. (Pounds/High Value)

DMI Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period. (Pounds/Low Value)

MILK Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. (Pounds/High Value)

ME Maintenance Energy predicts the difference in maintenance energy requirements. (Mcal per Month/Low Value)

HPG Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. (Percent/High Value)

CEM Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers. (Percent/High Value)

STAY Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. (Percent/High Value)

MARB Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib. (Marbling Score Units/High Value)

YG Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. (Yield Grade Units/Low Value)

CW Carcass Weight predicts differences in actual hot carcass weight. (Pounds/High Value)

REA Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. (Square Inches/High Value)

FAT Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. (Inches/Low Value)

We're starting out the sale with a bull we've been impressed with since the day he was born. He's, in our opinion, one of the best Quarterback sons we've seen with the performance and disposition match. His dam, PIE FAYETTE 8373, is one of our most productive donor cows with a great udder and phenotype. Lot 1 is a long, soft, big topped bull with an easy-going attitude. He's the real deal to kick things off.

Here's an outstanding outcross herd bull prospect sired by RED MRLA RESOURCE 137E. A moderate, thick, wide topped stud that always catches visitors' eyes. His dam, STONY 911G, is another of our best donor cows from the famed C-Bar Red Angus herd. This Resource son is can add phenotype and muscle to any cow herd.

Pounds, pounds, pounds. If you like your bulls heavy, thick, long and muscled here he is. 1004J has been leading the average daily gain race since he was weaned. He's the first calf from his dam and we're excited to see what she produces in the future. His sire, BIEBER ROU TROJAN G14, was our pick from the 2020 Bieber sale and sadly died this winter. Trojan sons will be limited so don't wait.

Home Raised Commerical Heifers

All heifers have been pelvic measured and reproductive tract scored by Oahe Veterinary Clinic. Heifers will be sold in groups of 10 head, gate cut, within each lot. Successful bidder may purchase as many 10 head groups within the same lot as are still available.

****Each heifer will include a straw of semen from one of our select herd bulls.****

Lot

72 50 Open Red Angus Commerical Heifers

Lot 72 (a) - 10 head

Lot 72 (b) - 10 head

Lot 72 (c) - 10 head

Lot 72 (d) - 10 head

Special thanks to our industry partners:

These cattle have all been developed with the commercial cow man and woman in mind. Each of these calves were born to cows that have been a part of a high end nutrition program utilizing only top tier products from the ADM range mineral and range protein lines for multiple years. A solid nutritional foundation coupled with strong genetic decisions from Travis and his guys made the development of these cattle a breeze. All of the bulls and females in the sale were developed on a high roughage diet utilizing ADM's AminoGain Technology, a variety of hay, corn silage and limited levels of corn and distillers grains. The diets that these cattle have been on from Day 1 have been aimed at ensuring proper growth, longevity and structural soundness for years to come. Each nutrition decision has been made through careful deliberation with everyone involved to ensure this entire set will go out, perform and bring the value of HanSine Ranch's genetic decisions and hard work to your cowherds. These cattle have been a pleasure to watch develop and I have no doubt that each of them will provide value to their new owners.

If you have any questions in regards to the nutrition of the cattle from calving through sale day, please don't hesitate to reach out to myself or any of the HanSine crew.

Terms and Conditions

BIDDING: The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS: Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

PURCHASER'S RISK: Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

IDENTIFICATION: Seller offers each animal with readable tattoos corresponding to its registration

CERTIFICATE OF REGISTRY: A transferred certificate of registry will be furnished to the Buyer for each animal.

HEALTH: All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal in accordance with prevailing State/Federal Regulations.

ANNOUNCEMENTS: Announcements from the auction block shall take precedence over the sale catalog and/or any additional printed information regarding animal(s) sold.

GUARANTEE: All animals are guaranteed for soundness and fertility for the first breeding season. Complete guarantee terms by the Red Angus Association of America are available online or a copy can be provided upon request.

RIGHTS AND OBLIGATIONS: These terms and conditions of sale constitute a contract between the Buyer and Seller of each animal. Any subsequent sale or resale of an animal constitutes a separate transaction. All persons attending the sale does so at their own risk. Neither Hansine Ranch or all agents of the owner assumes any liability – legal or otherwise.

DELIVERY: Delivery to central points will be made **FREE** of charge. Any animals picked up within one week of the sale (April 10th 2021 – April 16th 2021) receive a **\$100 DISCOUNT**.

2nd Annual Bull and Female Sale **Saturday, April 9th 2022 * 1:30pm (CST)** **Hayes, South Dakota**

A herd of cattle is grazing in a field at sunset. The sun is low on the horizon, casting a warm glow over the scene. The sky is filled with soft, golden light, and the clouds are tinged with orange and yellow. The cattle are scattered across the field, some standing and some grazing. The foreground is filled with tall, dry grass. The background shows rolling hills under a clear sky.
